

kubi Enhanced Audio Kit

The Kubi Enhanced Audio Package includes everything you need to enhance your tablet's microphone and speaker capabilities so your remote Kubi user can hear you and be heard in larger rooms and group settings.

The directional microphone eliminates side and background noise to focus sound collection where Kubi is facing.

The rechargeable speaker provides full audio with anti-clipping features for clear sound at higher volumes.

Order Kubi Enhanced Audio Package P/N 380-0014
